

DO54

Dynamic Omnidirectional

Based on the RE55, the DO54 is a moderately priced microphone with essentially flat response over its rated frequency range of 50-18,000 Hz. It is useful in applications where the RE55 would excel but where the one-third-octave additional response below 50 Hz is not required, or where small microphone-to-microphone variation is acceptable. The DO54 is a favorite with the serious amateur recordist. Also, its slim, short styling—where the connector literally becomes part of the microphone—makes the DO54 a fine hand-held microphone, on stage and on camera. The DO54 is also available in non-glare white (DO54W).

Frequency Response: 50-18,000 Hz

Impedance: 150 ohms

Output: - 58 dB

Diaphragm: EV Acoustalloy™

Case: Steel

Finish: Fawn beige micomatte
(DO54W in non-glare white)

Size:

146 mm (5¾") long;

29 mm (1⅛") max. diameter;

19 mm (¾") shank diameter

Weight: 184 grams (6.5 oz)

Cable: 4.6 m (15') Switchcraft A3F conn.

Included: 310A clamp, metal carrying case

Optional Accessories: Shown on
pages 22 & 23
