

MBNM 440 + MBNM 410

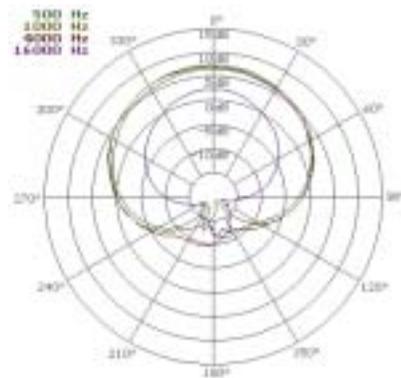

condenser cardioid + omni - small diaphragm

MBNM 440 & MBNM 410

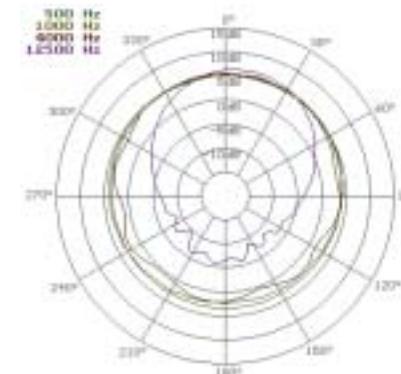

Our compact body (85mm) true condenser type with integrated capsule and amplifier is available in two models, the MBNM 440 cardioid and the MBNM 410 omni. Using advanced SMD technology with an extremely short signal path and low phantom power consumption plus the ability to accept voltages from 22 to 48 V, these microphones are well suited for battery operation. With a non-reflective lacquered mat black housing, precise and stunning sound reproduction is available at an entry-level price.

The **MBNM 440 S** model features a switchable 10 dB pad and a high pass filter (No. 92 - 4401).

Matched pairs are available!
